

ISO 27001 Internal Auditors Training

By conducting effective internal audits, you can ensure that your organization's Information Security Management System continually improves. In this two day course, our expert instructors will teach you how to plan, execute and report on an audit of ISMS in an organization assessing its conformance with ISO/IEC 27001:2013.

The course is made for beginners in information security and internal auditing, and no prior knowledge is needed to take this course. If you are interested in this course, you can go for the certification exam.

Lex-Q Certifications internal auditor training guides you how to manage the entire process end-to-end from initiating an audit to reporting on the assessment and conducting a follow up. This program is a combination of role plays, group exercises and tutorials you will be competent enough to brief how an ISMS audit should be run in line with ISO 27001 Standard.

Testimonials

delviom

“We are delighted to convey that the ISO 27001:2013 Internal Auditor Training conducted at Delviom LLC by Lex-Q was excellent. The training modules, the meticulous execution with great enthusiasm by were highly appreciated. The way of explaining the requirements with simple, relevant and practical examples made it very easy for us to understand how we can add value through Internal Auditing and improving our systems and practices. We feel our training objectives were achieved with great satisfaction and I personally thank Lex-Q a great success in their future endeavor.”

- Ram Reddy, *PMO Coordinator.*

WISE MEN
Putting Wisdom to Work

“An excellent course presented in a relaxed, constructive manner to promote delegate involvement. The trainer draws upon a wealth of knowledge of auditing experience. The course provides the structure and tools to plan, conduce and close audits. The trainer was very enthusiastic with excellent supporting notes / visual images. Made the standards clear and how to apply to auditing.”

- WISEMEN.
